PROFILE

An ambitious problem solver with a passion for web development, who would like to join a team of like-minded engineers. Proficient in JavaScript and React with a desire to learn all new technologies. I enjoy using the latest technology to deliver the simplest solution.

EXPERIENCE

Front End Developer   Nov 2020 – Jan 2022
Quizzy Works   London, UK

- Coordinate with design team to outline designs and prototypes.
- Creating features and functionality on new and existing websites with deep focus on usability, accessibility and performance.
- Building reusable components with responsive design in mind.
- Performing bug fixes, performance reviews and pull requests. Technical debt reduced by 30% in the first month.
- I've worked with apollo client to query and mutate data using GraphQL hooks.
- Lazy-loading React components and using NextJS for dynamic server side rendering. Deployment with custom domain using Heroku/Netlify.

React Developer Intern   July 2019 – July 2020
Hafnium Research   London, UK

- Learnt the basics of React
- Collaborated with a team of interface designers and engineers.
- Building reusable components for future project use.
- Utilizing state management such as Redux.
- Developed user interfaces according to sketch designs and consumed APIs whilst learning backend development.
- I've worked with Gatsby framework for static site rendering.

Electrician   2014 - 2019
THS Electricals   London, UK

EDUCATION

BSc Computer Science	BTEC Software Development Level 3	Northumberland Park 8 GCSE's
Brunel University	City and Islington College	Math's[B], English[C] Science[A]
Sep 2014 – May 2017	Sep 2012 – May 2014	Sep 2007 – July 2012
London, UK	London, UK	London, UK

SKILLS

JavaScript	Next.js, Gatsby, Apollo, GraphQL,	VSCode, GitHub, Heroku,
TypeScript	RestAPI, Jest, React Testing Library,	Netlify, Figma
